

TRANSMITTER REPAIR IN WEEKS, NOT MONTHS

We know the mission critical role transmitters play in your process.
Accurate transmitter measurement ensures your plant operates at maximum efficiency and profitability, and un-repaired damage can leave that exposed.

OUR TRANSMITTER SERVICES:

DIAGNOSE » REPAIR » REBUILD » TEST

Pressure seals

| Sealed systems

| Capillaries

TURNAROUND IN WEEKS, NOT MONTHS

We share the urgency of getting your operation back on track and we'll work with you on-site or at our repair shop.

IN-HOUSE VACUUM CHAMBER

MCE's in-house vacuum chamber allows us to repair capillaries and pressure seals at scale compared to fill bench methods.

UNMATCHED INVENTORY

MCE carries the largest inventory of replacement transmitter parts so you can skip the manufacturer's long lead time.

CERTIFIED PRECISION

MCE is a certified service partner for the industry's top manufacturers, ensuring precision to manufacturer specification.
