

Sanitizing Pressure Washer Mister Combination

This commercial grade pressure washer mister system puts disinfectant right where you need it. The combination electric 1400-PSI cold water pressure washer and 350-PSI low pressure dispensing mister is extremely easy to use and more efficient than manual misting. Simply adjust the valve to convert the unit from a pressure washer to a mister. Powered by a high quality electric motor it's ideal for indoor and outdoor cleaning and disinfecting.

Cold Water — Electric — Direct Drive
